GENERAL INFORMATION

Educational Objectives

Upon completion of this program, learner should be able to:

- Explore the current integration and future trends of artificial intelligence (AI) in clinical practice.
- Discuss resources available and best practices when working with limited-English proficient patient populations.
- Discuss the impact of trauma and how re-traumatization occurs for patients, families and staff. Discuss three strategies to use in practice when caring for patients and families who have experienced trauma.
- Improve recognition of abuse in the ambulatory setting and increase comfort with reporting cases of suspected abuse to child protective services.
- Discuss factors that increase the lifetime risk for the development of breast cancer and describe the breast cancer screening modalities.
- Define and review key definitions, stages and pathophysiology of the menopause transition. Review physical changes and common concerns seen in females in midlife. Review updated prevention strategies and therapies for midlife and menopause.
- Discuss how ambulatory care staff can help identify who may benefit from genetic counseling and testing across a variety of specialties.
- Discuss the similarities and differences between generations in order to operate effectively in the modern workplace. Develop an appreciation of how employees from different generations approach work and relationships. Discuss strategies and techniques for successful work relationships in a multigenerational workforce.

The UI Health Care Department of Nursing's continuing education programs are developed under the supervision of Lou Ann Montgomery, PhD, MAN, RN, NPD-BC, FAAN.

Determination of educational content for this program and the selection of speakers are responsibilities of the program director and planning committee. Firms providing financial support did not have input in these areas.

Nursing Credits:

6.75 contact hours will be granted by University of Iowa Health Care Department of Nursing (IBN Approved Nursing Providership #34). Participants must attend the entire program to receive full credit. Questions concerning nursing credits should be directed to the Nursing Clinical Education Center at (319) 356-1238.

Overarching Objectives:

- Describe resources to improve the delivery of care in the ambulatory setting.
- Discuss patient care issues and interventions to better diagnosis, treat, and manage the care of the patient in the ambulatory setting.
- Identify strategies to promote a healthy healthcare work environment.
