Please join us on Saturday November 1, 2025, for the 2025 Annual Meeting of the Iowa Radiological Society. This year's theme is Cardiothoracic Radiology.

INTENDED AUDIENCE

Academic and community-based radiologists, radiology residents, fellows, radiology technologists and other physicians.

PURPOSE

Current practices in Chest Radiology are continuing to change with evolving paradigms in Interstitial Lung Diseases, Lung cancer and imaging evaluation of cardiothoracic diseases. Radiologists and their patients can benefit from recent advances in the field as well as by improvements in day-to-day workflow. The 2025 annual meeting of Iowa Radiologic Society will explore these topics with local and national experts in their fields.

EDUCATIONAL OBJECTIVES

Upon completion of this activity the learner should be able to:

- Discuss the latest updates in Interstitial Lung Diseases (ILD)
- Differentiate ILD from other pulmonary conditions based on clinical, radiologic, and histopathologic features
- Describe the clinical presentation of ILD, including symptoms, history, and physical exam findings. Review diagnostic tools, including: High-Resolution CT (HRCT) patterns and their significance
- Identify major ILD subtypes, including Idiopathic Pulmonary Fibrosis (IPF), Connective Tissue Disease-Associated ILD (CTD-ILD), Hypersensitivity Pneumonitis (HP), Sarcoidosis, and others
- Explain factors affecting prognosis and disease progression
- Review strategies for monitoring ILD progression and response to treatment
- Review the recent Updates in Acute Aortic Syndromes using the new generation of PCCT-DECT scanners
- Describe advances in 3D CT virtual planning
- Discuss updates in Imaging for Early-Stage Lung Cancer

CREDIT

In support of improving patient care, this activity has been planned and implemented by the University of Iowa Roy J. and Lucille A. Carver College of Medicine and the Iowa Radiological Society. The University of Iowa Roy J. and Lucille A. Carver College of Medicine is jointly accredited by the
