you have any questions.

Psychiatric and Behavioral Patients: Managing Substance Intoxication and Agitation

Purpose/Description:

This program intends to assist bedside MICU staff members to anticipate, identify, and appropriately intervene on psychiatric and behavioral patients with substance intoxication. The topics and information presented are covered below in the objective to enhance the knowledge of the bedside nurse caring for psychiatric and behavioral patients in the critical care setting.

Objectives:

1. Compare and contrast psychiatric and behavioral symptoms related to substance intoxication.
2. Compare and contrast psychiatric and behavioral symptoms related to substance withdrawal syndromes.
3. Create a differential for agitation in critically ill patients.
4. Identify appropriate medications to manage different causes of agitation in critically ill patients.

Schedule:

0800-0900 – Psychiatric and Behavioral Patients: Managing Substance Intoxication and Agitation

Speakers:

Andrea Weber, MD, Clinical Assistant Professor, Psychiatry and Internal Medicine
Ben Miskle, PharmD, Clinical Assistant Professor, Pharmacy

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the Department of Nursing in advance at (319) 356-1238
