NURSING CONTINUING EDUCATION

Children's and Women's Services Fall Nursing Conference —

This annual conference is designed to explore patient care innovations for neonates, infants, children, adolescents and women throughout their life span. Presentations on new evidence-based standards of nursing care as well as new technologies, procedures, and research illustrate the constantly evolving nature of nursing practice in a changing health care environment. Topics address both behavioral and clinical issues that are relevant to nurses and ancillary professionals in a variety of settings including acute care, ambulatory, and community-based practices.
