GENERAL INFORMATION

Purpose:

This workshop is designed to provide basic information for obstetrical nurses on the use of fetal monitoring in the care of patients. Discussion will include methods of fetal monitoring, recognition of changes and interventions to assist in the management of patients. Documentation issues and methods of antepartum testing will be included.

Nursing Credit:

5.4 contact hours will be granted by UI Hospitals & Clinics Department of Nursing (IBN Approved Provider #34). Participants must attend the entire program to receive full credit.

Intended Audience:

Licensed nurses, providers and physicians.

Educational Objectives:

Upon completion of this program, learner should be able to:

- Discuss external and internal methods of monitoring fetal heart rate and uterine activity.
- Identify characteristics of fetal heart rate baseline and periodic and episodic changes using National Institute of Child Health and Human Development (NICHD) terminology.
- Identify fetal heart rate patterns requiring interventions.
- Review fetal heart rate patterns and uterine activity and discuss appropriate interventions.
- Discuss documentation and communication of electronic fetal monitoring.
- Describe methods of antepartum testing for the evaluation of fetal well-being.

REGISTRATION

Registration:

- Preregistration is required
- Online registration only
- Credit card payments only
- Registration is through UI Carver College of Medicine CloudCME

CloudCME Registration Link: <https://uiowa.cloud-cme.com>

In the yellow menu bar click **IA Board of Nursing CE**
Click **Register** on the desired course
