GENERAL INFORMATION

Educational Objectives:

Upon completion of this program, learner should be able to:

- Explain how cancer develops and the various ways in which it is treated.
- Identify important tests, procedures and blood counts to be aware of when working with oncology patients.
- Identify and list interventions to support/manage nutritional problems in people with cancer.
- Outline the role that pharmacy plays in the care of people living with cancer and how nurses can partner with pharmacy in providing quality care.
- Discuss the essential role of therapeutic communication in the care of patients and self and actively applying these principles in every day facets of life.
- Outline important strategies and interventions for managing cancer related pain.
- Review the role of the social workers and the navigator/care coordinators in the discharge process, including psychosocial/financial considerations and follow up care.
- Review the role of the navigator/care coordinator in the discharge process.

Purpose:

The purpose of this class is to provide general oncology related subjects to newer nurses.

Nursing Credit:

6.4 contact hours will be granted by UI Hospitals & Clinics Department of Nursing (IBN Approved Provider #34). Participants must attend the entire program to receive full credit.

Intended Audience:

Licensed nurses and other healthcare professionals.
