 College of Medicine

## Program Description and Educational Objectives

This program is designed for Optometrists and Ophthalmologists. Practical information will be presented on a wide variety of topic areas, particularly those that relate to management of ocular disorders.

Upon completion of the program, participants should be able to:

- \* Describe management of uveitis
- \* Describe common oculoplastic conditions
- \* Review complications of cataract surgery
- \* Discuss management of thyroid ophthalmopathy
- \* Discuss the management of headaches
- \* Review a variety of lid lesions
- \* Discuss advances in glaucoma
- \* Describe updates in MIGS surgery
- \* Review management of corneal infiltrates
- \* Discuss obesity in America
- \* Review management of hyphema
- \* Discuss newest trends in pediatric ophthalmology
- \* Review management of ocular trauma
